**Collection 2026**

**Ambiance starts with the magic  
of the flame**

## Did you know that...

83% of diners start their **journey online** with **91%** making decisions based on ratings and reviews

Ambiance is most important satisfaction driver. More than service, food quality and price

Create an atmosphere that speaks before the food does

Diners are drawn to a **real flame**. It sparks warmth, intimacy and luxury

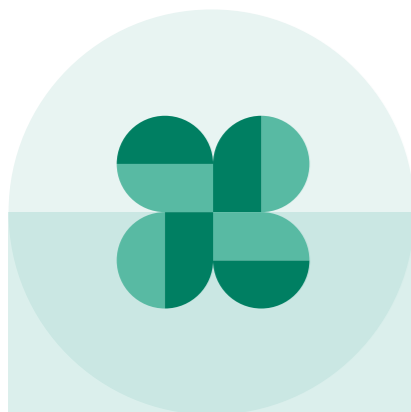

Not every flame is the same.

Some stand out by investing in excellence. In superior materials, in people, in our planet, our partners, and utilizing eco-friendly technology. You might see this as a high standard, but we see this as normal. Available for everyone, but especially for those longing for a perfect ambiance from inspiring collections.

We provide the best burning performance possible. Conveniently packed to make life easier because your work floor is already busy enough. With over 155 years our craftsmanship has lit up places where people come together.

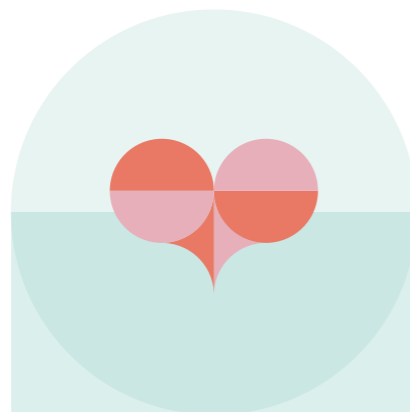

Wherever it is, whatever it is. Let's bring the magic of the flame to the table.

**bolsius**  
professional

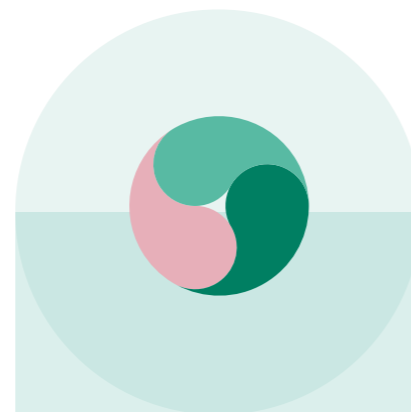

#### Irresistible experience

With excellent quality, using premium materials and aim for maximum performance standards, you can easily create the best atmosphere possible. On top of that, we ensure a fragrance free and clean burning of our collections.

#### Social responsibility

We do everything to produce our collections in the fairest way possible with love for people and planet. Therefore, our candles are sourced and made in Europe.

#### Mission green

We are conscious about our ecological footprint, we would like to keep it as small as possible and the vibes happy. To improve that we have eliminated palm oil completely, we use recycled plastics and recyclable materials.

# Bolsius is a certified B Corp

As a B Corp, we're part of a global community of businesses that meet high standards of social and environmental impact. Organizations that use their business as a force of good.

Obviously, we are delighted to be a part of the B corp movement. It's a recognition of the values that we pursue while sharing the magic of the flame with people worldwide. Furthermore, it's the beginning of our journey towards continuous improvement and collective action.

We believe in B Corp, as it is so much more than just another certification. It's a comprehensive impact measurement tool, that helps us measure our impact and guide us in the direction of improvement opportunities. The certification recognizes companies with high social and environmental standard that are on a continuous improvement journey and reflects our achievements and ambitions.

Being B Corp certified enables us to provide our serious commitment to people and planet in a way that customers, consumers, suppliers and employees can recognize, thanks to the growing awareness of the high-standards set by the B Corp certification.
